Who is VMS Software

VMS Software, Inc. was created as a result of its parent company Teracloud, Ltd (European corporation) purchasing from HP in 2014 all Rights to the OpenVMS Operating System.

VSI is headquartered in Bolton, Massachusetts USA; Offices in Malmo, Sweden. Locations in The Netherlands, France, Germany, UK and elsewhere in North America

The majority of VSI employees are developers and engineers, engaged in new product solutions, emphasizing on x86 platform availability by the final quarter of 2021.

VSI has approx. 90 employees (+ 40 contractors) with the majority in Bolton.

X86-64 Roadmap – past & future
