4tech Software

Title

Cyber Resilience, Tokenization and some Regulatory Compliance thrown in

Abstract

X4tech Software are all about Regulatory Compliance on the HPE NonStop. Lately that has also started to include Ransomware readiness or 'Cyber Resilience'. Our solution suite takes you from regulatory scoping through data security (Tokenization) to File and Subsystem Integrity Monitoring and Cyber Resilience. All NonStop based, all real time, all Enterprise connected and all available direct from HPE. This presentation will highlight security challenges and take a dive into how NonStop users around the world are addressing them with 4tech Software.

Speaker

Greg Swedosh

Speaker Biography

Initially working for Tandem Computers in Australia, Greg has been working with the HPE NonStop platform since 1985. During this time he has become renowned as a leader in the security and compliance field. Greg has assisted companies across the globe with their security and compliance needs.
